

Application No. 10/076,612
Amendment dated July 26, 2004
Reply to Office Action of June 28, 2004

REMARKS/ARGUMENTS

The Examiner required an election between two different groups of claims. The applicant has complied with this requirement by electing Group II.

An objection was raised with respect to a double reference character 114 in the drawings. Also objections were raised with respect to line quality, numbering and figure legends. These objections have been overcome by the replacement drawings.

Figure 1 was amended to correct the reference numeral 160 to 142.

The shape of member 114 in Figure 5 was slightly revised in accordance with the shape of the member shown in Figure 6.

The double number 114 in Figure 7 was corrected by changing one of these to 113.

In addition the specification has been amended to correct editorial matters.

Paragraph [0020] has been amended to remove the double number 114. The paragraph has also been amended to correct the reference numeral 104 which should have been 114.

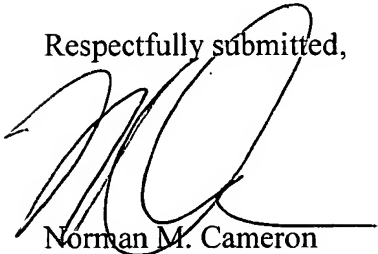

Paragraph [0022] has been amended to make the description consistent with the other drawings and the description elsewhere in the specification.

Paragraph [0024] was revised to correct the reference numeral 206 to 202.

Application No. 10/076,612
Amendment dated July 26, 2004

It is requested that the inventorship be corrected by deleting Eric B. Fetchko. Eric B. Fetchko's invention is no longer being claimed in the nonprovisional application. Enclosed is a check for US\$130.00 covering the required fee.

Respectfully submitted,

Norman M. Cameron
